Databases & tools: SQL, SQL Server, MySQL, Git, GitHub, IntelliJ IDEA, Visual Studio, VS Code

Systems & cloud: Windows, Linux, Microsoft 365, Active Directory, Group Policy, Azure fundamentals, VMware

IT support: Incident troubleshooting, ticket documentation, remote assistance, user account support, printers and DNS basics

EDUCATION

Mohawk College — Computer Systems Technician – Software Support | Hamilton, Ontario

Relevant studies: Data Structures & Algorithms, Database Theory, Web Programming, .NET Development, Cloud Computing, Linux and Project Management.

SELECTED PROJECTS

HamOnTap — Public Drinking Fountain Locator | JavaScript, HTML, CSS, Maps

- Built a responsive web application to help users find public drinking fountains in Hamilton using location-based search and map results.

The Board Game Vault — Community Website | WordPress, PHP, HTML, CSS, MySQL

- Created a multi-page website featuring game rentals, an events calendar, job listings, blog content and a contact form.

Doctor Who Database Application | C#, .NET Windows Forms, SQL Server

- Developed a desktop interface with database-backed selection controls and query functionality.

Sorting Algorithm Performance Analyzer | Java

- Compared sorting algorithms using runtime measurements and comparison counts to study efficiency.

PROFESSIONAL EXPERIENCE

Freelance IT Support — Upwork | May 2025 – Present

- Resolved Windows, Outlook, Microsoft 365 and printer issues for clients through remote troubleshooting.
- Documented solutions, communicated progress and supported small web-related tasks.

Junior IT Support Technician — Sipalaya Info Tech | Aug 2022 – Dec 2024

- Supported end users with Windows, Microsoft 365, account access and everyday technical issues.
- Assisted with Active Directory tasks, ticket tracking and remote or on-site troubleshooting.

Orientation Ambassador — Mohawk College & McMaster University | Sep 2025

- Helped students navigate orientation activities and provided clear, friendly guidance.
